Their extraordinary effects upon the system must be witnessed to be be belived, and as a certain preventive for the preceding complaints they are equally recommended. CHRISTIE'S GALVANIC STRENGTHENING PLASTERS. These articles form another valuable application of the mysterious influence of Galvanism. They are an important adjunct to the genuine Galvanic Rings and their modifications, acting upon the same principle, but having the advantage of more local application. They are confidently recomended as a valuable addition in the speedy cure of rheumatism, acute or chronic; in all nervous complaints, and as a positive remedy in cases of pain and weakness in the cheat of back, pain in the side, in asthmatic affections and in weakness or oppression of the pulmonary organs. In spiral complaints their effects are of the most decided character, and they have often been used with complete success.
